

Peter Rabbit™ Nature Looms

Learn how to make a Peter Rabbit inspired nature loom!

You will need:

- Cardboard (cut into a rectangular shape)
- A pencil
- Scissors
- String
- A Peter Rabbit stencil
(found on the next page)

Step by step:

- Cut out the Peter Rabbit stencil
- Place your stencil over the cardboard and draw around him with a pencil
- Use your pencil to create some holes in the middle of the cardboard – this will make cutting the figure out easier
- Cut out the image of Peter Rabbit using the holes you've created and a pair of scissors
- Take the string and tie it around the frame
- Go on a nature walk and collect items along the way to weave into your loom – such as fallen flowers and leaves.

Adult supervision required when using scissors
